6	Way Forward	17

Operations

- ✓ Project sites in US, Australia, Oman and Chile were partially functioning. The construction has recently gathered pace and things have begun to normalise
- ✓ In India, Africa and ME our operations were suspended due to lockdown which have started to get normalized. The force majeure has been invoked and we will be getting time extension as per the contracts
- ✓ O&M activities were 100% working as normal at all sites, because all the plants need to have their up-time, and these are considered as essential services

Demand and Order Inflow

- ✓ Robust order intake inspite of COVID-19 situation
- ✓ Total cost of solar power internationally is much less than variable cost of thermal power. Hence the solar industry continues to grow globally and has a bright future. Our bidding pipeline is robust and there are number of projects which are in an advance stage of negotiation

Supply Chain

- ✓ PV Module suppliers had started operating at about 80% to 85% of their capacity since May 2020
- ✓ Had taken exemptions from customers and got our local representatives to do the inspection of modules, post which they were shipped
- ✓ No issues in procurement of trackers and inverters during the lockdown period

Liquidity and Financials

- ✓ No probability of bank guarantee getting encashed as force majeure notices have been issued to customers

Unexecuted Order Value (UOV) Movement

INR Crore

Gross UOV as on 15 Sep 2020

(before adjusting revenue post 30th June 2020)

* The Company has from the current quarter, adopted a policy to only include projects in the order book post signing of the customer contract. To align the order book to this revised policy the Company has decided to exclude two long standing LOIs / LNTPs relating to the Sudair Project in Saudi Arabia and the Fortum Phase II project in Montenegro. This has resulted in re-rating of the order book by Rs 5,815 crores. The same will be again included in the order book as and when the relevant customer contract is signed.

If the same policy were to have been adopted retrospectively, the orders booked in FY 20 would have been Rs. 4,602 crore in comparison with which, the orders booked in the 5 ½ months of the current year are already Rs. 5,696 crore

Healthy order inflow and robust order book

- ✓ Current year order inflow to date is Rs 5,696 crore (1.4 GW) as compared to Rs 828 crores during the same period last year
- ✓ 7.8 GW contracted O&M as at 15th September 2020
- ✓ Gross Unexecuted Order Value (UOV) as at 15th September 2020 is Rs 10,223 crore (before adjusting for revenue post 30th June 2020 and excluding LOI's) – Please refer Slide 4 for explanation on exclusion of LOIs

- ✓ Revenue impacted due to delay in commencement of few projects
- ✓ O&M revenue increased by 77% in Q1FY21 to Rs 63 crore compared to Q1FY20
- ✓ Gross margins stood at 10.7% in Q1FY20 compared to 12.8% in FY20
- ✓ EBITDA for Q1FY21 was Rs 18 crore and EBITDA margins (excluding interest income) were at 1.7% in Q1FY21 due to lower revenue
- ✓ Net Working capital increased by Rs 207 crore to Rs 383 crore as at 30th June 2020 on account of higher unbilled revenue
- ✓ Repaid term debt (principal) of Rs 1,858 crore since listing till 15th September 2020. Interest on term debt is serviced separately on a monthly basis
- ✓ Intercompany deposit (ICDs) of Rs 1,615 crore (Principal + Interest) repaid from the date of listing till 15th September 2020

Key Highlights

- ▶ Revenue* lower in Q1FY21 on account of
 - higher revenue in previous period on completion of projects in MENA and SEA region.
 - COVID -19 Pandemic having an impact on domestic operation
- ▶ O&M revenue higher by 77% in Q1FY21 as against Q1 FY 20. O&M constitutes 5.9% of revenue in Q1FY21 compared to 2.88% in Q1FY20
- ▶ Gross margins* reduced to 10.67% in Q1FY21 due to lower revenue and higher margin in the previous period towards project closure
- ▶ Overheads reduced due to cost efficiency measures undertaken , reduction in travelling cost due to COVID-19
- ▶ Overheads include Rs 17 crore on account of restatement loss on loan given to an overseas branch which is effectively in the nature of equity contribution. The same has been accounted in P&L instead of FCTR through OCI in keeping with relevant Ind AS.
- ▶ Depreciation increase primarily on account of adoption of INDAS 116
- ▶ Net interest income lower in Q1FY21 as against Q1FY20 due to repayment of inter-corporate deposits from August 2019 onwards

*** SWSL being an EPC company, the revenue, orders inflows and gross margins could be lumpy due to geographical mix and stage of execution of the project in any particular quarter and hence comparison on corresponding previous period will not be true reflection and performance for a quarter may not be a representative of full year**

Derivative contracts

- ▶ The Group has taken forward contracts (including cross currency hedge) to hedge the exposure of currency fluctuation in respect of receivable from customers, trade payables and letter of credit.
- ▶ The AUD-INR derivative contracts were taken for receivable from customers and AUD-USD and USD-INR derivative contracts was taken for trade payable and letter of credit payments.
- ▶ As per Ind AS 109, when a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognised in Other Comprehensive Income ('OCI') and accumulated in the other equity under 'effective portion of cash flow hedges'.
- ▶ Any ineffective portion of changes in the fair value of the derivatives is recognised immediately in the statement of profit and loss.
- ▶ On utilization of forward contract on the date of maturity the effective portion of cash flow hedge reserve previously recognized in Other Comprehensive Income is recycled into profit or loss which would be off set by increase in revenue or restatement of receivable/payables.
- ▶ The notional value of derivative contracts outstanding as at 30 June 2020 and the effective and ineffective portion as at 30 June 2020 is tabulated below:
