**Sterling and Wilson Solar Solutions Inc. is awarded  
its largest solar project in the United States of America**

**26 June, 2020:** Sterling and Wilson Solar Solutions, Inc (SWSS), the US subsidiary of Sterling and Wilson Solar Limited (SWSL) (BSE Scrip Code: 542760; NSE Symbol: SWSOLAR), one of the world's largest solar EPC solutions providers, announced that it has been awarded a USD 99 million (~INR 747 crore) contract to construct a 194 MW project in the United States of America. It is being developed by a leading sustainable energy company, and will be co-located in an area that has substantial wind development in operation.

Construction for the project will commence in September 2020 and will be commissioned by November 2021. SWSS will be managing the entire turn-key execution for the PV project, and once commercially operational, the plant will produce enough solar energy to power over 35,000 homes, saving approximately 275,000 metric tons of carbon emissions. The plant will be utilizing bifacial technology to increase production of power density.

**Mr. Amit Jain – Country Head, SWSS** said, *“We are delighted to have been awarded this project in USA, which has some of the best renewable energy resources in the world. Sterling and Wilson Solar Solutions, Inc is focused on technological efficiency, performance, consumer centricity, and execution which has helped us to win and build projects in this strategically located market.”*

The project will support concerns over climate change, create clean energy jobs, and save thousands of dollars in energy costs. It will also play a key role in transforming the state's clean and renewable energy goals.

SWSL (along with its subsidiaries) has commissioned numerous high-performing solar power projects globally and has to its credit around 9.2 GWp projects in various geographies. This portfolio includes a 1,177 MWp solar project in Abu Dhabi - one of the world's largest single location solar PV plants. SWSL also manages a portfolio of 7.4 GWp of O&M projects globally, a testament to its best-in-class services.

**About Sterling and Wilson Solar Limited**

Sterling and Wilson Solar Limited, a Shapoorji Pallonji group company, is a global pure-play, end-to-end solar engineering, procurement and construction (EPC) solutions provider. The company provides EPC services primarily for utility scale solar power projects with a focus on project design and engineering and manages all aspects of project execution from conceptualization to commissioning. SWSL also provides operations and maintenance (O&M) services, including projects constructed by third parties. Present in 25 countries today, SWSL has operations in Asia, the Middle East, Africa, Europe, the Americas and Australia through its branches and subsidiaries.
